

Starting up your ViewSonic media player with

DisplayIt!Xpress

1. Plug the media player into a screen using an HDMI cable.
2. Plug in an Ethernet cable connected to the Internet.
3. Plug in a USB keyboard and mouse.
4. Plug the power adapter into an electrical socket.
5. On the first **DisplayIt!Xpress** screen, you will see the IP address from your network in red on the right-side of the screen - **write it down.**
6. There are three updating options. Most popular is Local or Wide-Area Network.
7. On the next screen, fill in your email address **in all lower case characters.**
8. The next two fields are the username and password for communications. The defaults are 'admin' and 'admin' (all lower case). You may change them. They are case sensitive. Click the Enter key after each field. **IMPORTANT: Make note of the username and password**
9. After a brief countdown, you will see a blue sky image with the Best Wave logo.
10. Unplug the keyboard and mouse.
11. Leave unit running. Communications only work while the player is running.

Installing the Management Console on Your Desktop Computer

1. Go www.bestwave.com/DisplayItX-Product.php. From the Download section download the **Management Console** software onto your desktop computer.
2. Install the Management Console. It will ask if your player software is from a download or software/hardware bundle. Choose **bundle**.
4. Register using the same email used when setting up the media player.
5. To learn about the DisplayITx Express, click the Tutorial button to watch the tutorial video.
6. Use the IP address, UserID and Password from above to set up your display.
