

M2W

LED Smart Theater User Guide

IMPORTANT: Please read this User Guide to obtain important information on installing and using your product in a safe manner, as well as registering your product for future service. Warranty information contained in this User Guide will describe your limited coverage from ViewSonic[®] Corporation, which is also found on our web site at http://www.viewsonic.com in English, or in specific languages using the Regional selection box of our website.

Model No. VS19063 P/N: M2W

Thank you for choosing ViewSonic®

As a world-leading provider of visual solutions, ViewSonic[®] is dedicated to exceeding the world's expectations for technological evolution, innovation, and simplicity. At ViewSonic[®], we believe that our products have the potential to make a positive impact in the world, and we are confident that the ViewSonic[®] product you have chosen will serve you well.

Once again, thank you for choosing ViewSonic[®]!

Safety Precautions

Please read the following **Safety Precautions** before you start using the projector.

- Keep this user guide in a safe place for later reference.
- Read all warnings and follow all instructions.
- Allow at least 20" (50 cm) clearance around the projector to ensure proper ventilation.
- Place the projector in a well-ventilated area. Do not place anything on the projector that prevents heat dissipation.
- Do not place the projector on an uneven or unstable surface. The projector may fall over, causing personal injury or projector malfunction.
- Do not use if the projector is tilted at an angle of more than 10° degrees left or right, nor at an angle of more than 15° degrees forwards or backwards.
- Do not look straight at the projector lens during operation. The intense light beam may damage your eyes.
- Do not block the projection lens with any objects when the projector is under operation as this could cause objects to become heated and deformed or even cause a fire.
- Do not attempt to disassemble the projector. There are dangerous high voltages inside which may cause death if you should come into contact with live parts.
- When moving the projector, be careful not to drop or bump the projector on anything.
- Do not place any heavy objects on the projector or connection cables.
- Do not stand the projector on end vertically. Doing so may cause the projector to fall over, causing personal injury or projector malfunction.
- Avoid exposing the projector to direct sunlight or other sources of sustained heat. Do not install near any heat sources such as radiators, heat registers, stoves, or other devices (including amplifiers) that may increase the temperature of the projector to dangerous levels.
- Do not place liquids near or on the projector. Liquids spilled into the projector may cause it to fail. If the projector does become wet, disconnect it from the power supply and call your local service center to have the projector serviced.
- When the projector is under operation, you may sense some heated air and odor from its ventilation grill. It is a normal operation and not a defect.

- Do not attempt to circumvent the safety provisions of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding-type plug has two blades and a third grounding prong. The wide and third blade are provided for your safety. If the plug does not fit into your outlet, obtain an adapter and do not attempt to force the plug into the outlet.
- When connecting to a power outlet, DO NOT remove the grounding prong. Please ensure grounding prongs are NEVER REMOVED.
- Protect the power cord from being treaded upon or pinched, particularly at the plug, and at the point where it emerges from the projector.
- In some countries, the voltage is NOT stable. This projector is designed to operate safely within a voltage between 100 to 240 volts AC, but could fail if power cuts or surges of ±10 volts occur. In areas where voltage may fluctuate or cut out, it is recommended that you connect your projector through a power stabilizer, surge protector, or uninterruptable power supply (UPS).
- If smoke, an abnormal noise, or a strange odor is present, immediately switch the projector off and call your dealer or ViewSonic[®]. It is dangerous to continue using the projector.
- Use only attachments/accessories specified by the manufacturer.
- Disconnect the power cord from the AC outlet if the projector is not being used for a long period of time.
- Refer all servicing to qualified service personnel.

CAUTION: Possibly hazardous optical radiation is emitted from this product. As with any bright light source, do not stare into the beam, RG2 IEC 62471-5:2015

Introduction

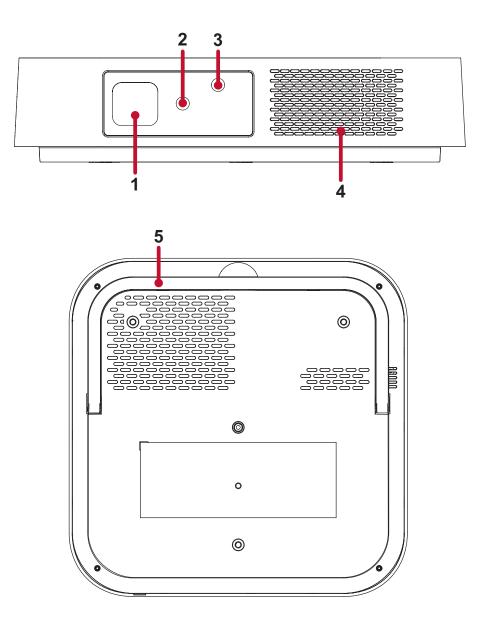

Package Contents

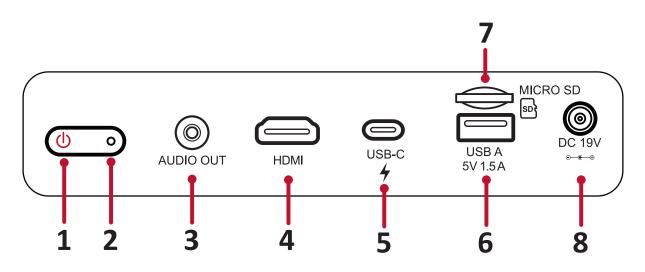

NOTE: The power cord and video cables included in your package may vary depending on your country. Please contact your local reseller for more information.

Product Overview

Projector

| Number | Item | Description | | |
|--------|------------------------|---------------------------------|--|--|
| 1 | Lens | Projector Lens | | |
| 2 | IR Sensor | IR Sensor | | |
| 3 | Auto Focus Camera | Automatically adjusts the focus | | |
| 4 | harmon/kardon Speakers | harmon/kardon speakers | | |
| 5 | Adjustor Foot | Stepless adjustment foot | | |

| Number | Port | Description | | |
|--------|-------------------------|---|--|--|
| 1 | Power Button | Power On/Off | | |
| 2 | LED Indicator | LED Indicator | | |
| 3 | Audio Out (3.5 mm jack) | 3.5 mm jack audio output socket | | |
| 4 | HDMI ¹ | HDMI port ² | | |
| 5 | USB-C ³ | USB-C port | | |
| 6 | USB A (5V/1.5A Out) | USB 2.0 Type A port (USB Reader - FAT32/NTFS) | | |
| 7 | MICRO SD | Micro SD socket (SDXC up to 256 GB - FAT32/NTFS | | |
| 8 | DC IN | Power input socket | | |

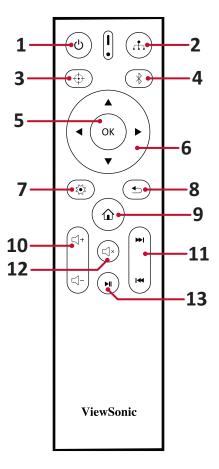

¹ Supports HDCP 1.4/HDMI 1.4

² iPhone/iPad users will need to buy an additional adapter. To avoid compatibility issues, please use Apple authorized accessories.

³ Please use the supplied USB-C cable, and ensure your USB-C device can support video transmission as well as charging.

Remote Control

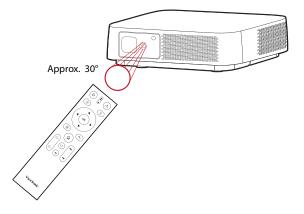

| Button | | Description |
|-----------------------------|--|--|
| [1] Power | \bigcirc | Turns the projector On or Off |
| [2] Source | | Displays the input source selection bar. |
| [3] Focus | () | Automatically focus the image. To manually adjust, press and hold the Focus button on the remote control for three (3) seconds |
| [4] Bluetooth | | Launch Bluetooth search. |
| [5] OK | ОК | Confirms the selection. |
| [6] Up/Down/Left/ Right | | Navigates and selects the desired menu items and makes adjustments. |
| [7] Setting | | Displays the Setting menu. |
| [8] Return | | Returns to the previous screen. |
| [9] Home | | Access the Home screen. |
| [10] Volume | □ □ □ | Increase/Decrease the volume level. |
| [11] Forwards/ Backwards | Image: state | Move content forwards/ backwards. |
| [12] Mute | | Mute/Unmute. |
| [13] Play/Pause | | Play/Pause content. |

Remote Control - Effective Range

To ensure proper function of the remote control follow the steps below:

- The remote control must be held at an angle within 30° perpendicular to the projector's IR remote control sensor(s).
- 2. The distance between the remote control and the sensor(s) should not exceed 8 m (26 ft.)
 - **NOTE:** Refer to the illustration for the location of the infrared (IR) remote control sensor(s).

Remote Control - Replacing the Batteries

- **1.** Remove the battery cover from the bottom of the remote control by pressing the finger grip and sliding it across.
- 2. Remove any existing batteries (if necessary) and install two AAA batteries.

NOTE: Observe the battery's polarities as indicated.

3. Replace the battery cover by aligning it with the base and pushing it back into position.

NOTE:

- Avoid leaving the remote control and batteries in excessive heat or a humid environment.
- Replace only with the same or equivalent type recommended by the battery manufacturer.
- If the batteries are drained or if you will not be using the remote control for an extended period of time, remove the batteries to avoid damage to the remote control.
- Dispose of the used batteries according to the manufacturer's instructions and local environment regulations for your region.

Initial Setup

This section provides detailed instructions for the initial set up of your projector.

Choosing a Location - Projection Orientation

Personal preference and room layout will decide the installation location. Consider the following:

- Size and position of your screen.
- Location of a suitable power outlet.
- Location and distance between the projector and other equipment.

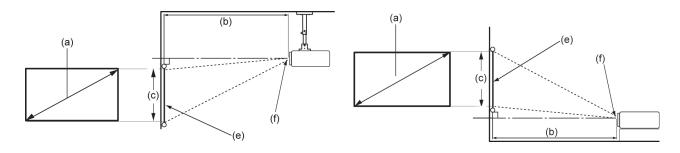

The projector is designed to be installed in one of the following locations:

| Location | |
|--|--|
| Front Table The projector is placed near the floor in front of the screen. | |
| Front Ceiling The projector is suspended upside-down from the ceiling in front of the screen. | |
| Rear Table ¹ The projector is placed near the floor behind the screen. | |
| Rear Ceiling ¹ The projector is suspended upside-down from the ceiling behind the screen. | |

¹ A rear projection screen is required.

Projection Dimensions

• 16:10 Image on a 16:10 Screen

NOTE: (e) = Screen / (f) = Center of Lens

16:10 Image on a 16:10 Screen

| (a) Scre | en size | mi | in. | max. | | Height | |
| in. | cm | in. | m. | in. | cm | in. | mm |
| 30 | 76.2 | 30.5 | 77.5 | 30.5 | 77.5 | 15.9 | 40.4 |
| 40 | 101.6 | 40.7 | 103.4 | 40.7 | 103.4 | 21.2 | 53.8 |
| 50 | 127 | 50.9 | 129.2 | 50.9 | 129.2 | 26.5 | 67.3 |
| 60 | 152.4 | 61.1 | 155.1 | 61.1 | 155.1 | 31.8 | 80.8 |
| 70 | 177.8 | 71.2 | 180.9 | 71.2 | 180.9 | 37.1 | 94.2 |
| 80 | 203.2 | 81.4 | 206.8 | 81.4 | 206.8 | 42.4 | 107.7 |
| 90 | 228.6 | 91.6 | 232.6 | 91.6 | 232.6 | 47.7 | 121.2 |
| 100 | 254 | 101.8 | 258.5 | 101.8 | 258.5 | 53.0 | 134.6 |
| 110 | 279.4 | 111.9 | 284.3 | 111.9 | 284.3 | 58.3 | 148.1 |
| 120 | 304.8 | 122.1 | 310.2 | 122.1 | 310.2 | 63.6 | 161.5 |
| 130 | 330.2 | 132.3 | 336.0 | 132.3 | 336 | 68.9 | 175 |
| 140 | 355.6 | 142.5 | 361.8 | 142.5 | 361.8 | 74.2 | 188.5 |
| 150 | 381 | 152.6 | 387.7 | 152.6 | 387.7 | 79.5 | 201.9 |

NOTE: There is a 3% tolerance among these numbers due to optical component variations. It is recommended to physically test the projection size and distance before permanently installing the projector.

Mounting the Projector

- **NOTE:** If you buy a third party mount, please use the correct screw size. Screw size can vary depending on the thickness of the mounting plate.
- **1.** To ensure the most secure installation, please use a ViewSonic[®] wall or ceiling mount.
- **2.** Ensure the screws used to attach the mount to the projector meet the following specifications:
 - Screw type: M4 x 8
 - Maximum Screw Length: 8 mm
- **3.** To access the ceiling mount points, remove the three (3) foot pads on the bottom of the projector.

| | © 0 | |
|---|--------|---|
| 0 | | • |

CAUTION:

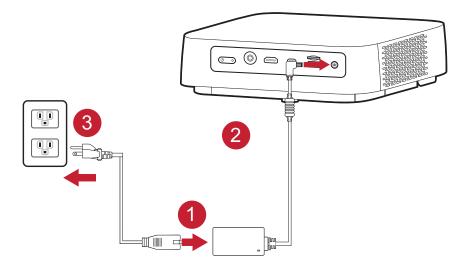

- Avoid installing the projector near a heat source.
- Keep at least a 10 cm (3.9 in.) gap between the ceiling and the bottom of the projector.

Making Connections

This section guides you on how to connect the projector with other equipment.

Connecting to Power DC Power (Power Outlet)

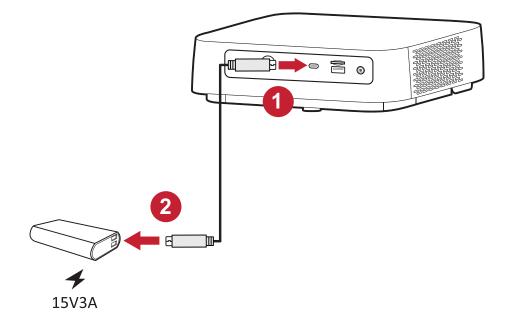

- **1.** Connect the power cord to the power adapter.
- 2. Connect the power adapter to the DC IN jack at the rear of the projector.
- **3.** Connect the power cord plug to a power outlet.

NOTE: When installing the projector, incorporate a readily accessible disconnect device in the fixed wiring, or connect the power plug to an easily accessible outlet near the unit. If a fault should occur during operation of the projector, use the disconnect device to switch off the power supply, or disconnect the power plug.

USB-C Power Bank

- **1.** Connect one end of the USB Type-C cable to the **USB-C** port of the projector.
- **2.** Connect the other end of the USB Type-C cable to the power bank.

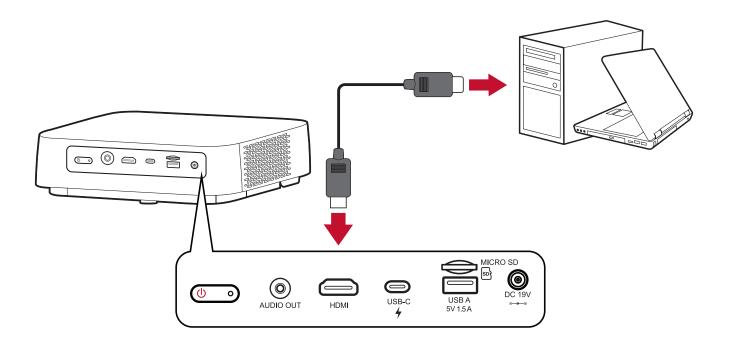

NOTE: The power bank should be 45W (15V/3A) at least, and support Power Delivery (PD) protocol output.

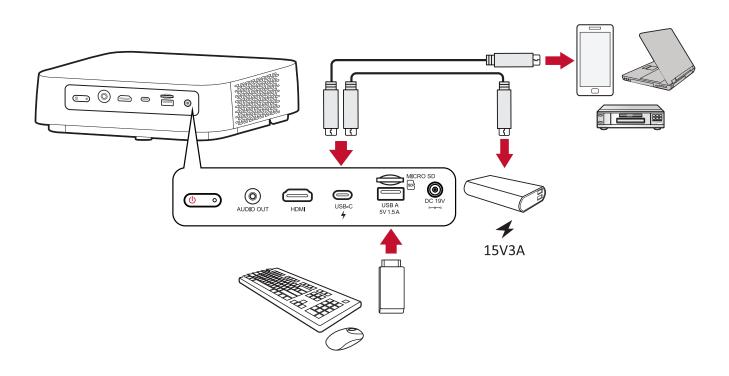

Connecting to External Devices HDMI Connection

Connect one end of an HDMI cable to the HDMI port of your video device. Then connect the other end of the cable to the **HDMI** port (it supports HDCP 1.4/HDMI 1.4) of your projector.

NOTE: iPhone/iPad users will need to use an additional adapter.

USB Connection

USB-C Connection

Connect one end of a USB Type-C cable to the USB-C port of your device. Then connect the other end of the cable to the **USB-C** port of your projector.

NOTE:

- Ensure your USB Type-C device can support video transmission.
- The M2W can also use a USB-C connected power bank to turn on the system. However, the brightness level will be limited to 60% of **Full**.

USB Type-A Connection

Connect one end of a USB Type-A cable to the USB-A port of your device (if applicable). Then connect the other end of the cable to the **USB-A** port of your projector.

Additionally, you can connect a keyboard, a mouse, dongles, storage devices, etc. to the projector's **USB-A** port. To learn more about managing storage device, e.g. USB Flash Drive, content, see page 46.

Wireless Screen Mirroring

Screen Mirroring provides a 5GHz Wi-Fi connection for users to mirror the screen on their personal device.

NOTE: Ensure your device is connected to the same network as the projector.

For iOS:

- 1. Access the drop down control menu.
- 2. Select the "Screen Mirroring" icon.
- 3. Choose "ViewSonic PJ-XXXX".

For Android:

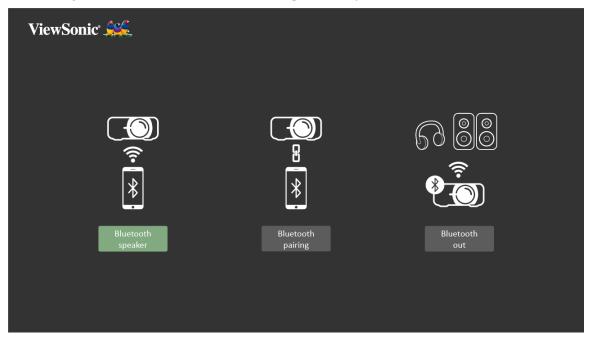

- 1. Download and install the "Google Home" application and open it.
- 2. Pull-to-refresh the app and wait for 30 seconds.
- **3.** "ViewSonic PJ-XXXX" will now be visible, select it.
 - **NOTE:** Some Android devices support direct "Casting". If your device does, go to the Casting feature and choose "ViewSonic PJ-XXX" from the list of available devices. You can also scan the FAQ QR code and follow the steps to directly cast your Android device.

Connecting to Audio Bluetooth Speaker

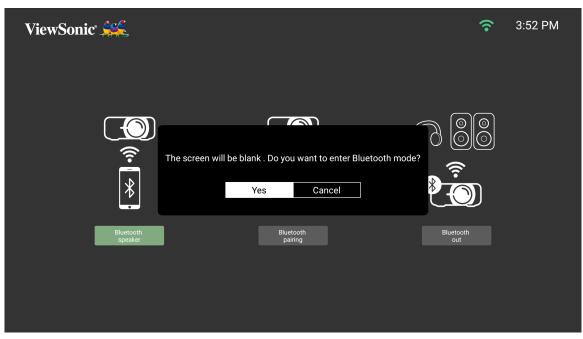

The projector is equipped with Bluetooth that allows the user to connect their device wirelessly for audio playback.

To connect and pair your device:

- **1.** Go to: **Home > Bluetooth**.
- 2. Use the Left and Right directional buttons on the remote control to select Bluetooth Speaker or Bluetooth Pairing. Then press OK on the remote control.

3. When the below dialogue box appears, select **Yes** and press **OK** on the remote control to enter Bluetooth mode.

- **4.** A sound effect will be audible upon entering pairing mode.
- **5.** Upon successful connection, another sound effect will be audible.

NOTE:

- Once paired, if both the projector and your device are powered on they will automatically connect via Bluetooth.
- The projector's name will be labeled as "M2W".
- Only the Power and Return buttons can exit Bluetooth mode.

Bluetooth Out

<image><page-header>

Connect the projector to external headphones or speakers that support Bluetooth.

To connect and pair your device:

- **1.** Go to: **Home > Bluetooth**.
- 2. Use the Left and Right directional buttons on the remote control to select the Bluetooth Out option.

| ි මම Bluetooth out | 76:99:B3:28:53:20 90:DD:5D:B6:8D:51 6D:F9:50:CF:DE:FD 78:6D:B6:AE:97:52 44:7E:D7:7A:2E:ED CK-CHEN-W10 |
|-----------------------|--|
| | |

3. The projector will search for nearby Bluetooth devices. Select your device from the list and press **OK** on the remote control.

Connecting to Networks Wi-Fi Connection

To connect to a Wi-Fi network:

- 1. Go to: Home > Setting > Network Settings > Wi-Fi
- 2. Press Left or Right on the remote control to select Enable.

| ViewSonic (| | | | ? | 3:53 PI | М |

- **5.** Enter the password when prompted.
 - **NOTE:** It is recommended to let the system configure the network settings automatically by choosing **Automatic** for **Configure IP**.

Using the Projector

Starting Up the Projector

- **1.** Ensure the projector's power cord is properly connected to a power outlet.
- **2.** After plugging in the DC Power Adapter, the projector will turn on automatically.

NOTE: The Status LED will be green during startup.

First Time Activation

If the projector is activated for the first time, you will need to select your Projection Orientation, Preferred Language, Network Settings, and Source Input. Follow the on-screen instructions using the **OK** and **Up/Down/Left/Right** buttons on the remote control. When the Finish screen appears, this indicates the projector is ready to use.

Auto Focus

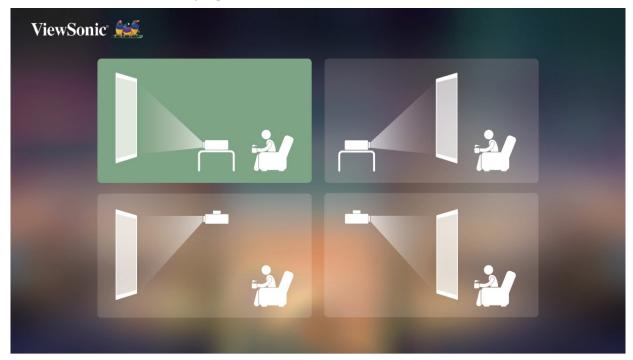

The automatic focus adjustment will run for the first time activation.

NOTE: You may use the **Left/Right** buttons to focus the projection manually.

Projection Orientation

Select the preferred projection orientation and press **OK** to confirm the selection. For more information, see page 13.

Preferred Language

Select the desired language and press **OK** to confirm the selection.

Source Input

Quickly access the **Source Input** menu by pressing the **Down** button on the remote control when at the **Home Screen**. Additionally, you can press the **Source** button on the remote control. For more information, see page 30.

Selecting an Input Source

The projector can be connected to multiple devices at the same time. However, it can only display one full screen at a time.

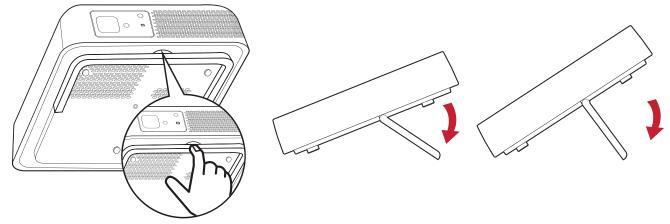

The projector will automatically search for input sources. If multiple sources are connected, press the **Source** button on the remote control to select the desired input, or press the **Down** button when at the **Home Screen** until the source list is displayed.

NOTE: Ensure the connected sources are also turned on.

Adjusting the Projected Image

Adjusting the Projector's Height and Projection Angle

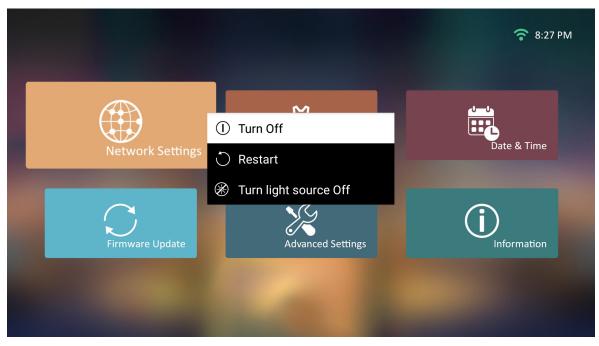

The projector is equipped with one (1) adjuster foot. Adjusting the foot will change the projector's height and the vertical projection angle. Carefully adjust the foot to fine tune the projected image's position.

NOTE: If the projector is not placed on a flat surface or the screen and the projector are not perpendicular to each other, the projected image can become trapezoidal. However, the "Auto Keystone" function will correct the issue automatically.

Shutting Down the Projector

1. Press the **Power** button on the projector or remote control and the following message will appear:

- Press the Up/Down buttons on the remote control to select Turn Off and press
 OK on the remote control.
- **3.** The Status LED will turn solid red once turned off.
 - **NOTE:** When pressing **Power** on the remote control, you can choose from three options: Turn Off, Restart, and Turn light source Off.

Image Setting Menu

After your input source is selected, you can adjust the **Image Setting** menu. To access the **Image Setting** menu:

1. Press Setting on the remote control.

2. Use the Up/Down buttons to select a menu.

3. Then use the **Left/Right** buttons to enter the sub-menu(s) and/or adjust the settings.

4. Press the Return button to go to the previous menu or exit.

| Menu Option | Description | | |
|-------------|---|--|--|
| | The projector is preset with several predefined picture modes so that you can choose one to suit your operating environment and input signal. | | |
| | Brightest Maximizes the brightness of the projected image. This mode is suitable for environments where extra-high brightness is required, i.e. well-lit rooms. | | |
| | <u>TV</u> Optimized for viewing sports in well-lit environments. | | |
| Color Mode | <u>Gaming</u> Designed for playing video games. | | |
| | Movie Appropriate for colorful movies, video clips from digital cameras, or DVs through the PC input. Best for low-light environments. | | |
| | User 1/User 2 | | |
| | Recalls the customized user settings. | | |
| | NOTE: Only supports HDMI/USB-C signal input. | | |
| | The higher the value, the brighter the image. Lower values will result in a darker image. | | |
| Brightness | | | |
| Contrast | Use this to set the peak white level after you have previously adjusted the Brightness setting to suit your selected input and viewing environment. | | |
| | | | |

| Menu Option | Description |
|-------------|--|
| Color Temp | Select the color temperature setting. 6500K: Maintains normal white coloring. 7500K: A higher, cooler color temperature than 6500K. 9300K: The highest color temperature; makes the image appear the most bluish-white. User Color: Adjust red, green, and blue values as desired. |
| Tint | The higher the value, the more greenish the picture becomes. The lower the value, the more reddish the picture becomes. |
| Saturation | Refers to the amount of that color in a video picture. Lower settings produce less saturated colors; in fact, a setting of "0" removes that color from the image entirely. If the saturation is too high, that color will be overpowering and unrealistic. |
| Sharpness | A high value results in a sharper picture; a low value softens the picture. |
| Gamma | Reflects the relationship between input source and picture brightness. |

| Menu Option | Description | | |
|---------------------------------|--|--|--|
| | Only in permanent installations with controlled lighting levels such as: boardrooms, lecture halls, or home theaters should Color Management be considered. | | |
| Color Management | Red Yellow Green White Magenta Cyan Blue | | |
| | Color Management provides fine color control adjustment to allow for more accurate color reproduction, should you require it. | | |
| | If you have purchased a test disc, which contains various color test patterns and can be used to test the color presentation on monitors, TVs, projectors, etc., you can project any image from the disc on the screen and enter the Color Management menu to make adjustments. | | |
| Reset Current Color Settings | Return current color settings to their default values. | | |

Advanced Setting Menu

After your input source is selected, you can adjust the **Advanced** menu.

To access the **Advanced** menu:

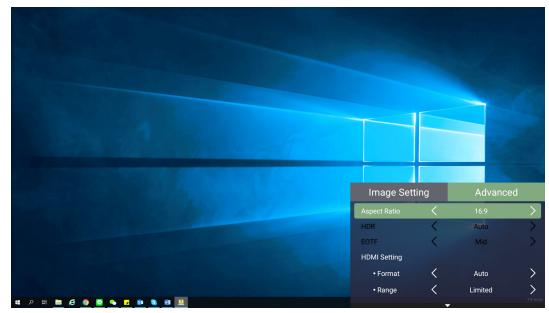

1. Press Setting on the remote control.

2. Press the Right button to access the Advanced menu.

3. Use the **Up/Down** buttons to select a menu.

- **4.** Then use the **Left/Right** buttons to enter the sub-menu(s) and/or adjust the settings.
- 5. Press the **Return** button to go to the previous menu or exit.

| Menu Option | Description |
|-----------------------|---|
| | The Aspect Ratio is the ratio of the image width to the image height. With the advent of digital signal processing, digital display devices, like this projector, can dynamically stretch and scale the image output to a different aspect than that of the image input signal. |
| | NOTE: Only supports HDMI/USB-C signal input. |
| Aspect Ratio | <u>4:3</u> Scales an image so that it is displayed in the center of the screen with a 4:3 aspect ratio. This is most suitable for 4:3 images like computer monitors, standard definition TV, and 4:3 aspect DVD movies, as it displays them without aspect alteration. |
| | 16:9 Scales an image so that it is displayed in the center of the screen with a 16:9 aspect ratio. This is most suitable for images which are already in a 16:9 aspect, like high definition TV. |
| | <u>16:10</u> Scales an image so that it is displayed in the center of the screen with a 16:10 aspect ratio. This is most suitable for images which are already in a 16:10 aspect. |
| Zoom | Activate the zoom function. |
| Light Source Level | Select the suitable power consumption of the LED. |
| HDMI Settings | <u>Range</u> Select a suitable color range according to the color range setting of the connected output device. Full: Sets the color range from 0~255. Limited: Sets the color range from 15~235. Auto: Sets the projector to detect the range of the input signal automatically. |

| Menu Option | Description | |
|---------------|---|--|
| | Enables you to enjoy 3D movies, videos, and sporting events in a more realistic way by presenting the depth of the images while wearing 3D glasses. | |
| 3D Settings | <u>3D Sync</u> Adjust and choose from: Auto, Disable, Frame Sequential, Frame Packing, Top-Bottom, Side-by-Side. | |
| | <u>3D Sync Invert</u> | |
| | Allows for correction if the 3D image depth is inversed. | |
| harman/kardon | Adjust the audio settings. | |
| Information | Shows Input Source and Resolution. | |

Operating the Projector

This section will introduce the **Home Screen** and its menus.

Home Screen

The **Home Screen** is displayed every time you start the projector. To navigate the **Home Screen**, simply use the directional buttons on the remote control. You can return to the main **Home Screen** at any time by pressing the **Home** button on the remote control, regardless of what page you are on.

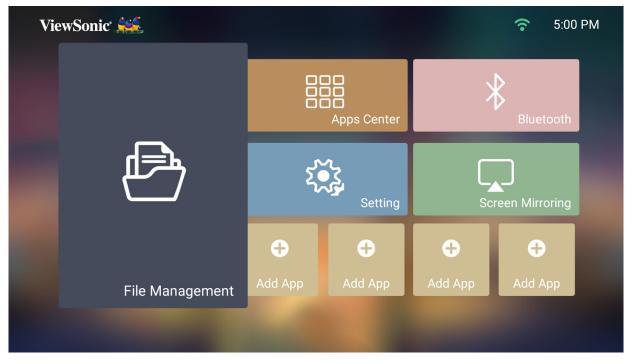

| Menu | Description |
|------------------|---|
| File Management | Provides a user interface to manage files and folders. |
| Apps Center | Access and view all the applications you have installed. |
| Bluetooth | Select the appropriate Bluetooth mode. |
| Setting | Manage various categories such as: Network settings, Basic and Advanced settings, Date & Time, Firmware update, and System Information. |
| Screen Mirroring | Mirror your personal device's screen through the projector. |
| Add App | Select your favorite Apps and add them to the Home Screen. |

Menu Operations

File Management

Easily manage files and folders.

1. Select: Home > File Management.

2. Select a device on the source list: USB, Local Storage, MicroSD, etc. Use the direction buttons to select the desired file. Then press **OK** on the remote control to open the selected file.

| ViewSonic | | | 중 5:33 PM |
|-----------|---|---|-----------|
| Đ | File Management Local Storage WSB 2 | /storage/emulated/0 Alarms Android DCIM Download Movies Music Music Notifications Pictures Podcasts Ringtones vCast | |

- **3.** Press the **Return** button to go to a previous a level.
 - **NOTE:** Press the **Home** button on the remote control to return to the **Home Screen** at anytime.

How to Edit a File

- **1.** While in **File Management**, press and hold the **OK** button for three (3) seconds.
- **2.** A check box will appear at the front of each file. Use the direction buttons and press **OK** to select one or more files.

| ViewSonic | | | 중 5:34 PM |
|-----------|---|--|-----------|
| Đ | File Management ← Local Storage ← USB 2 | /mnt/usb/6BF0-45CB Android BUDA D D LOST.DIR M1+_V1.02B M1_V1.05D System Volume Information M1+.bin M1+.bin MstarUpgrade.bin SanDiskMemoryZone_QuickStartGuide.pd SandiskMemoryZone.apk | |

3. By pressing the **Right** button, Copy, Paste, Cut, Delete, Select All, and Return boxes will be available for use.

- 4. Select your desired action and press OK to execute.
- **5.** If you are Copying or Cutting, select your destination folder to complete the process.

How to Use Control Bar Buttons

The Control Bar buttons will appear on screen if a video, music, or photo file are selected to be opened.

Tips for Using USB

When using USB for reading and/or storage please keep in mind the following:

- **1.** Some USB storage devices may not be compatible.
- **2.** If you use an USB extension cable, the USB device may not recognize the USB.
- **3.** Only use USB storage devices formatted with Windows FAT32 or NTFS file system.
- 4. Larger files will need extra time to load.
- 5. Data on USB storage devices may be damaged or lost. Back up important files.

Supported File Formats

Supported Office formats:

| | Item | Indicators |
|-------------------------------------|---|---|
| Document | doc/docx | Able to open and read documents in doc/ docx |
| viewing function | xls/xlsx | Able to open and read documents in xls/xlsx |

| | | | | | | |
| | | | | | | |

NOTE: Press the **Home** button on the remote control to return to the **Home Screen** at anytime.

App Store

The projector is pre-loaded with the App Store, which allows users to download and install different Apps.

1. Select: Home > Apps Center > App Store.

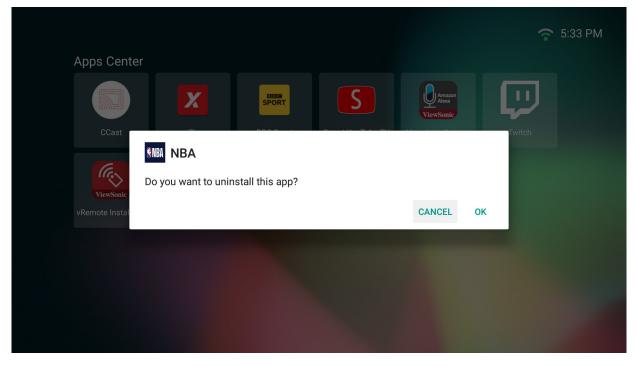

2. Use the direction buttons to navigate the menu options. When you find your preferred App, press the **OK** button to install it.

NOTE:

- Users can install third-party Apps by .apk file in **File Management**. However, some third-party Apps may have compatibility issues.
- Apps not pre-loaded by ViewSonic may not be compatible or work properly.
- Some Apps may require a keyboard or mouse.
- Some Apps may be Region-Specific.

To Uninstall Apps

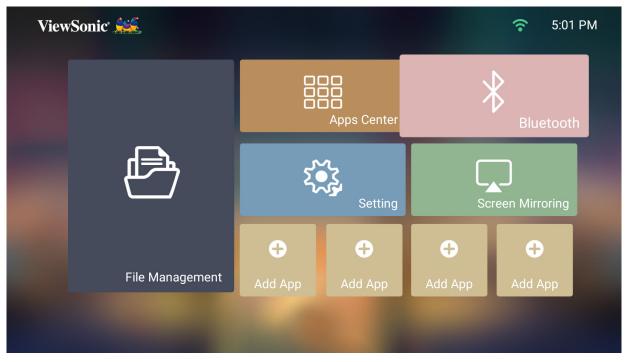

- **1.** Open the **Apps Center** by selecting: **Home** > **Apps Center**.
- **2.** Use the directional buttons to select the desired App.
- **3.** Press and hold **OK** on the remote control for three (3) seconds. The below dialogue box will appear:

- **4.** Select **OK** to uninstall the App.
 - **NOTE:** Press the **Home** button on the remote control to return to the **Home Screen** at anytime.

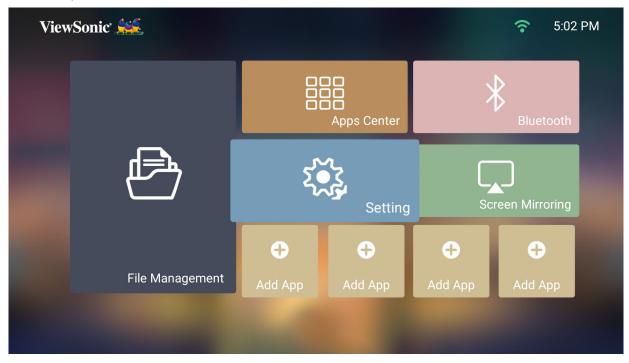

Bluetooth

The projector is equipped with Bluetooth that allows the user to connect their device wirelessly for audio playback. For more information, see page 21.

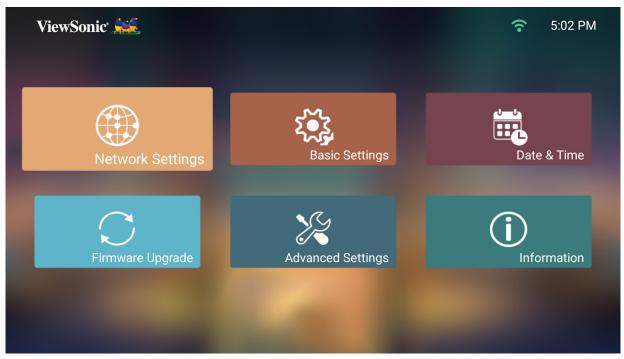

Setting

Under **Setting** you can adjust Network, Basic, and Advanced Settings, Date & Time, Firmware Update, and view Information.

Network Settings

1. Select: Home > Setting > Network Settings.

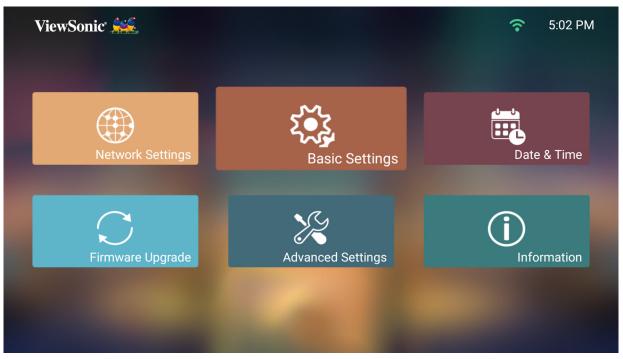

2. View and adjust your Wi-Fi and network settings.

Troubleshooting

This section describes some common problems that you may experience when using the projector.

| Problem or Issue | Possible Solutions |
|--------------------------------|---|
| | Ensure the power cord is properly attached to the projector and to the power outlet. |
| The projector does not turn on | If the cooling process has not completed, please wait until it has finished then try to turn on the projector again. |
| | If the above does not work, try another power outlet or another electrical device with the same power outlet. |
| | Ensure the video source cable is connected properly, and that the video source is turned on. |
| There is no picture | If the input source is not selected automatically, select the correct source with the Source key on either the projector or the remote control. |
| | Adjusting focus with the remote control will help correctly focus the projection lens. |
| The image is blurred | Ensure the projector and screen are aligned properly. If necessary, adjust the height of the projector as well as the projection angle and direction. |
| The remote control | • Ensure there are no obstacles between the remote control and projector; and that they are within 8 m (26 ft) of each other. |
| does not work | The batteries may be out of power, please check and replace if necessary. |

LED Indicators

| Light | Status and Description |
|--------|---------------------------------|
| U U | |
| | Power |
| Red | Stand-by mode (5 sec.) (< 0.5W) |
| Green | Power On |

Maintenance

General Precautions

- Make sure the projector is turned off and the power cable is unplugged from the power outlet.
- Never remove any parts from the projector. Contact ViewSonic[®] or a reseller when any part of the projector needs replacing.
- Never spray or pour any liquid directly onto the case.
- Handle the projector with care, as a darker-colored projector, if scuffed, may show marks more clearly than a lighter-colored projector.

Cleaning the Lens

- Use a canister of compressed air to remove dust.
- If the lens is still not clean, use lens-cleaning paper or moisten a soft cloth with lens cleaner and gently wipe the surface.

CAUTION: Never rub the lens with abrasive materials.

Cleaning the Case

- Use a soft, lint-free, dry cloth to remove dirt or dust.
- If the case is still not clean, apply a small amount of non-ammonia, non-alcohol based, mild non-abrasive detergent onto a clean, soft, lint-free cloth, then wipe the surface.

CAUTION: Never use wax, alcohol, benzene, thinner, or other chemical detergents.

Storing the Projector

If you intend to store the projector for an extended period of time:

- Ensure the temperature and humidity of the storage area are within the recommend range.
- Retract the adjuster foot completely.
- Remove the batteries from the remote control.
- Pack the projector in its original packaging or equivalent.

Disclaimer

- ViewSonic[®] does not recommend the use of any ammonia or alcohol-based cleaners on the lens or case. Some chemical cleaners have been reported to damage the lens and/or case of the projector.
- ViewSonic[®] will not be liable for damage resulting from use of any ammonia or alcohol-based cleaners.

Regulatory and Service Information

Compliance Information

This section addresses all connected requirements and statements regarding regulations. Confirmed corresponding applications shall refer to nameplate labels and relevant markings on the unit.

FCC Compliance Statement

This device complies with part 15 of FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.

The users manual or instruction manual for an intentional or unintentional radiator shall caution the user that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Industry Canada Statement

CAN ICES-003 (B) / NMB-003(B)

IC Warning Statement

This device complies with Industry Canada license- exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, méme si le brouillage est susceptible d'en compromettre le fonctionnement.

Country Code Statement

For product available in the USA/Canada market, only channel 1~11 can be operated. Selection of other channels is not possible.

Pour les produits disponibles aux États-Unis/Canada du marché, seul le canal 1 à 11 peuvent être exploités. Sélection d'autres canaux n'est pas possible.

IC Radiation Exposure Statement

This equipment complied with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body. The device for the band 5150-5825 MHz is only for indoor usage to reduce potential for harmful interference to co-channel mobile satellite systems.

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlê. Cet équipement doit être installé et utilize avec un minimum de 20cm de distance entre la source de rayonnement et votre corps. les dispositifs fonctionnant dans la bande 5150-5825 MHz sont réservés uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage.

Operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems.

La bande 5 150-5 250 MHz est réservés uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage pré judiciable aux systèmes de satellites mobiles utilisant les mêmes canaux.

CE Conformity for European Countries

CE The device complies with the EMC Directive 2014/30/EU, Low Voltage Directive 2014/35/EU, Ecodesign Directive 2009/125/EC and Radio Equipment Directive 2014/53/EU.

Frequency Range: 2400-2483.5MHz, 5150-5250MHz

Max Output Power: under 20dBm

The following information is only for EU-member states:

The mark shown to the right is in compliance with the Waste Electrical and Electronic Equipment Directive 2012/19/EU (WEEE). The mark indicates the requirement NOT to dispose of the equipment as unsorted municipal waste, but use the return and collection systems according to local law.

Declaration of RoHS2 Compliance

This product has been designed and manufactured in compliance with Directive 2011/65/EU of the European Parliament and the Council on restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS2 Directive) and is deemed to comply with the maximum concentration values issued by the European Technical Adaptation Committee (TAC) as shown below:

| Substance | Proposed Maximum Concentration | Actual Concentration |
|---|-----------------------------------|----------------------|
| Lead (Pb) | 0.1% | < 0.1% |
| Mercury (Hg) | 0.1% | < 0.1% |
| Cadmium (Cd) | 0.01% | < 0.01% |
| Hexavalent Chromium (Cr6 ⁺) | 0.1% | < 0.1% |
| Polybrominated biphenyls (PBB) | 0.1% | < 0.1% |
| Polybrominated diphenyl ethers (PBDE) | 0.1% | < 0.1% |
| Bis(2-Ethylhexyl) phthalate (DEHP) | 0.1% | < 0.1% |
| Benzyl butyl phthalate (BBP) | 0.1% | < 0.1% |
| Dibutyl phthalate (DBP) | 0.1% | < 0.1% |
| Diisobutyl phthalate (DIBP) | 0.1% | < 0.1% |

Certain components of products as stated above are exempted under the Annex III of the RoHS2 Directives as noted below. Examples of exempted components are:

- Copper alloy containing up to 4% lead by weight.
- Lead in high melting temperature type solders (i.e. lead-based alloys containing 85% by weight or more lead).
- Electrical and electronic components containing lead in a glass or ceramic other than dielectric ceramic in capacitors, e.g. piezoelectronic devices, or in a glass or ceramic matrix compound.
- Lead in dielectric ceramic in capacitors for a rated voltage of 125V AC or 250V DC or higher.

Indian Restriction of Hazardous Substances

Restriction on Hazardous Substances statement (India). This product complies with the "India E-waste Rule 2011" and prohibits use of lead, mercury, hexavalent chromium, polybrominated biphenyls or polybrominated diphenyl ethers in concentrations exceeding 0.1 weight % and 0.01 weight % for cadmium, except for the exemptions set in Schedule 2 of the Rule.

Product Disposal at End of Product Life

ViewSonic[®] respects the environment and is committed to working and living green. Thank you for being part of Smarter, Greener Computing. Please visit the ViewSonic[®] website to learn more.

NOTE: You will need the product's serial number.

Limited Warranty

ViewSonic[®] Projector

What the warranty covers:

ViewSonic[®] warrants its products to be free from defects in material and workmanship, under normal use, during the warranty period. If a product proves to be defective in material or workmanship during the warranty period, ViewSonic[®] will, at its sole option, repair or replace the product with a like product. Replacement product or parts may include remanufactured or refurbished parts or components.

Limited Three (3) year General Warranty:

Subject to the more limited one (1) year warranty set out below, North and South America: Three (3) years warranty for all parts excluding the lamp, three (3) years for labor, and one (1) year for the original lamp from the date of the first consumer purchase.

Other regions or countries: Please check with your local dealer or local ViewSonic[®] office for the warranty information.

Limited One (1) year Heavy Usage Warranty:

Under heavy usage settings, where a projector's use includes more than fourteen (14) hours average daily usage, North and South America: One (1) year warranty for all parts excluding the lamp, one (1) year for labor, and ninety (90) days for the original lamp from the date of the first consumer purchase; Europe: One (1) year warranty for all parts excluding the lamp, one (1) year for labor, and ninety (90) days for the original lamp from the date of the first consumer purchase. Other regions or countries: Please check with your local dealer or local ViewSonic[®] office for the warranty information. Lamp warranty subject to terms and conditions, verification and approval. Applies to manufacturer's installed lamp only. All accessory lamps purchased separately are warranted for 90 days.

Who the warranty protects:

This warranty is valid only for the first consumer purchaser.

What the warranty does not cover:

- **1.** Any product on which the serial number has been defaced, modified, or removed.
- **2.** Damage, deterioration, or malfunction resulting from:
 - » Accident, misuse, neglect, fire, water, lightning, or other acts of nature, unauthorized product modification, or failure to follow instructions supplied with the product.
 - » Operation outside of product specifications.
 - » Operation of the product for other than the normal intended use or not under normal conditions.
 - » Repair or attempted repair by anyone not authorized by ViewSonic[®].
 - » Any damage of the product due to shipment.
 - » Removal or installation of the product.
 - » Causes external to the product, such as electric power fluctuations or failure.
 - » Use of supplies or parts not meeting Viewsonic's specifications.
 - » Normal wear and tear.
 - » Any other cause which does not relate to a product defect.
- **3.** Removal, installation, and set-up service charges.

How to get service:

- For information about receiving service under warranty, contact ViewSonic[®] Customer Support (Please refer to the "Customer Support" page). You will need to provide your product's serial number.
- To obtain warranted service, you will be required to provide: (a) the original dated sales slip, (b) your name, (c) your address, (d) a description of the problem, and (e) the serial number of the product.
- **3.** Take or ship the product, freight prepaid, in the original container to an authorized ViewSonic[®] service center or ViewSonic[®].
- **4.** For additional information or the name of the nearest ViewSonic[®] service center, contact ViewSonic[®].

Limitation of implied warranties:

There are no warranties, express or implied, which extend beyond the description contained herein including the implied warranty of merchantability and fitness for a particular purpose.

Exclusion of damages:

ViewSonic's liability is limited to the cost of repair or replacement of the product. ViewSonic[®] shall not be liable for:

- Damage to other property caused by any defects in the product, damages based upon inconvenience, loss of use of the product, loss of time, loss of profits, loss of business opportunity, loss of goodwill, interference with business relationships, or other commercial loss, even if advised of the possibility of such damages.
- 2. Any other damages, whether incidental, consequential or otherwise.
- **3.** Any claim against the customer by any other party.

Effect of state law:

This warranty gives you specific legal rights, and you may also have other rights which vary from local authority. Some local governments do not allow limitations on implied warranties and/or do not allow the exclusion of incidental or consequential damages, so the above limitations and exclusions may not apply to you.

Sales outside the U.S.A. and Canada:

For warranty information and service on ViewSonic[®] products sold outside of the U.S.A. and Canada, contact ViewSonic[®] or your local ViewSonic[®] dealer.

The warranty period for this product in mainland China (Hong Kong, Macao, and Taiwan Excluded) is subject to the terms and conditions of the Maintenance Guarantee Card.

For users in Europe and Russia, full details of warranty provided can be found at: http://www.viewsonic.com/eu/ under "Support/Warranty Information".

Mexico Limited Warranty

ViewSonic[®] Projector

What the warranty covers:

ViewSonic[®] warrants its products to be free from defects in material and workmanship, under normal use, during the warranty period. If a product proves to be defective in material or workmanship during the warranty period, ViewSonic[®] will, at its sole option, repair or replace the product with a like product. Replacement product or parts may include remanufactured or refurbished parts or components & accessories.

How long the warranty is effective:

3 years for all parts excluding the lamp, 3 years for labor, 1 year for the original lamp from the date of the first consumer purchase.

Lamp warranty subject to terms and conditions, verification and approval. Applies to manufacturer's installed lamp only.

All accessory lamps purchased separately are warranted for 90 days.

Who the warranty protects:

This warranty is valid only for the first consumer purchaser.

What the warranty excludes and does not cover:

1. Any product on which the serial number has been defaced, modified or removed.

- **2.** Damage, deterioration, or malfunction resulting from:
 - » Accident, misuse, neglect, fire, water, lightning, or other acts of nature, unauthorized product modification, unauthorized attempted repair, or failure to follow instructions supplied with the product.
 - » Any damage of the product due to shipment.
 - » Causes external to the product, such as electrical power fluctuations or failure.
 - » Use of supplies or parts not meeting ViewSonic[®]'s specifications.
 - » Normal wear and tear.
 - » Any other cause which does not relate to a product defect.
- **3.** Any product exhibiting a condition commonly known as "image burn-in" which results when a static image is displayed on the product for an extended period of time.
- **4.** Removal, installation, insurance, and set-up service charges.

How to get service:

For information about receiving service under warranty, contact ViewSonic[®] Customer Support (Please refer to the attached "Customer Service" page). You will need to provide your product's serial number, so please record the product information in the space provided below on your purchase for your future use. Please retain your receipt of proof of purchase to support your warranty claim.

For Your Records

| Product Name: | Model Number: |
|--|----------------------------------|
| Document Number: | Serial Number: |
| Purchase Date: | Extended Warranty Purchase?(Y/N) |
| If so, what date does warranty expire? | |

- To obtain warranty service, you will be required to provide (a) the original dated sales slip, (b) your name, (c) your address, (d) a description of the problem, and (e) the serial number of the product.
- **2.** Take or ship the product, in the original container packaging, to an authorized ViewSonic[®] service center.
- **3.** Round trip transportation costs for in-warranty products will be paid by ViewSonic[®].

Limitation of implied warranties:

There are no warranties, express or implied, which extend beyond the description contained herein including the implied warranty of merchantability and fitness for a particular purpose.

Exclusion of damages:

ViewSonic[®]'s liability is limited to the cost of repair or replacement of the product. ViewSonic[®] shall not be liable for:

- Damage to other property caused by any defects in the product, damages based upon inconvenience, loss of use of the product, loss of time, loss of profits, loss of business opportunity, loss of goodwill, interference with business relationships, or other commercial loss, even if advised of the possibility of such damages.
- 2. Any other damages, whether incidental, consequential or otherwise.
- 3. Any claim against the customer by any other party.
- 4. Repair or attempted repair by anyone not authorized by ViewSonic[®].
